

Removable String Attachment System

(Available for Backpack Pro only)

IAMRUNBOX Backpack Pro has small loops around its body specifically designed to easily fasten an external attachment string. This removable system allows you to attach and hold firmly IAMRUNBOX Shoe Bag, jacket or accessories, thus keeping your hands free.

Simply pass the string crosswise through the loops starting at the bottom part of the backpack. To ensure that your belongings are firmly attached, do not forget to tighten the string at the end.
